

# EMERGENCY KIT FOR CHLORINE TON CONTAINER

IEC Fabchem Limited the pioneers in the field of Chlorination and other Toxic Gas handling & Safety Systems with 30 years of experience have developed a "NEW GENERATION EMERGENCY KIT" to meet today's industrial safety requirements.

## THE KIT IS DESIGNED TO ARREST

- Leak through valve seat.
- Leak due to breakage of valve.
- Leak due to container wall puncture (Surface Leak).

As an option the kit is provided with tools to suit "Leak Through Fusible Plug". Indian containers are not generally provided with fusible plug.

## UNIQUE DESIGN FEATURES

- Single operator can use the kit.
- Common wrench to operate the kit.
- Self centering design to attend valve leakage.
- Light in weight for easy handling.
- Pre-assembled unit to reduce handling time.
- Parts location Display and instruction on front of cabinet.
- All parts housed in a vertical floor mounted cabinet.

## STANDARD PARTS LIST

### DEVICES

- A. Valve leak arrestor assembly - 1 set
- B. Surface leak arrestor assembly - 1 set
- C. Drift pins - 3 Nos.

### SPARES

1. Teflon Valve - gland packing
2. Spare gasket for - A
3. Spare gasket for - B

### OPTIONAL EXTRA

\* Fusible Plug Leak Arrestor

\* Kit can also be used for Ammonia And Sulphur dioxide containers.

### ACCESSORIES

1. Common Wrench for A & B - 1 No.
2. Hammer - 1 No.
3. Valve Body Wrench - 1 No.
4. Valve gland tightening spanner - 1 No.
5. Valve spindle operating key - 1 No.
6. Valve outlet blind nut - 1 No.
7. Wire brush - 1 No.
8. Cannister gas mask - 1 No.
9. Emergency kit storing box - 1 No.
